# NextDecade leases site for second LNG project in Texas

US-based energy firm NextDecade has signed lease agreements with state and local authorities to develop an LNG export facility on the US gulf coast outside Houston, Texas.

The agreements cover roughly 375 acres of city-owned land at the Shoal Point site on Galveston Bay, just east of Texas City's petrochemical facilities and over 600 acres of adjoining state-owned land managed by the Texas General Land Office.
